

## List of opportunities for funding student/research exchanges in the Nordics

*Compiled by the NorPEN EduGroup*

### **iAPOGEE Visiting Scholarship Program, 2021–2026**

The research visit will enable applicants to gain experience with perinatal **pharmacoepidemiology** and large Norwegian registries and/or birth cohorts. The researcher will be included in ongoing research projects together with PharmaSafe researchers selected according to the applicant's preferences and expertise. The project will be multidisciplinary and conducted in close collaboration with international and national partners. Expected outcomes include a publication in a high-ranking journal.

The research program is funded by The Research Council of Norway.

### **Erasmus+**

ERASMUS+ is an EU programme for Education, Training, Youth and Sport for 2021-2027. Bilateral exchange agreements exist between a number of European university partners. Check if your institution is one of these partners!

For Karolinska Institutet specific information: <https://education.ki.se/exchange-programmes>

### **Nordplus**

Nordplus Higher Education is a programme for exchange of teachers and students at universities, university colleges and other higher education institutions in the Nordic and Baltic countries. The programme builds on cooperation within networks, offering activities such as student and teacher exchanges and intensive programmes.
