

# Program NorPEN, Stockholm 16-18 November 2016

## Day 1, Wednesday 16 November

**12:30-13:00** Registration

**13:00-13:15** Welcome by Associate professor Helle Kieler, director of CPE

**13:15-14:00** Cancer Pharmacoepidemiology from a broad prospective

**Speaker:** Associate professor Shahram Bahmanyar

**14:00-14:30** Break

**14:30-15:30** Cancer and its treatment in developing countries

**Speaker:** Assistant professor Helena Nordenstedt, Karolinska Institutet

**15:30-16:30** Pharmacoepislam part 1 (3 min presentation+5 min questions)

- 1) Depression, Anxiety, and Antidepressant Treatment in Women: Association with In-vitro Fertilization Outcome. **Speaker:** Carolyn E Cesta
- 2) A registry-based long-term follow-up study of the quadrivalent HPV vaccine in the Nordic countries. **Speaker:** Espen Enerly
- 3) Drug-disease interactions in elderly primary care patients: prevalence and risk factors. **Speaker:** Katharina Schmidt-Mende
- 4) Psoriasis patients new to specialist care in Sweden 2007-2009: a two-year follow-up of treatment allocation. **Speaker:** David Hägg
- 5) Proton-pump inhibitors and cancer risk: a study proposal. **Speaker:** Óskar Örn Hálfðánarson
- 6) Fracture-preventing benefit of bisphosphonates by level of adherence and its timing following therapy start: a register-based study of postmenopausal women in Sweden. **Speaker:** Anna Westerlund
- 7) Use of attention-deficit/hyperactivity disorder medication among older adults in Denmark. **Speaker:** Lotte Rasmussen

**18:30** Executive committee meeting

## Day 2, Thursday 17 November

**09:00-10:00** Pharmacoepislam part 2 (3 min presentation+5 min questions)

- 1) Treatment changes among users of non-vitamin K antagonist oral anticoagulants in atrial fibrillation. **Speaker:** Maja Hellfritzsch
- 2) Use of hydrochlorothiazide and lip cancer. **Speaker:** Anton Pottegård
- 3) Characteristics of patients at initiation of treatment for primary chronic immune thrombocytopenia. **Speaker:** Charlotta Ekstrand

- 4) Pharmacological agents preceding a diagnosis of immune thrombocytopena in patients developing the chronic form: A Swedish national register study. **Speaker:** Lukas Löfling
- 5) Opium use during pregnancy and risk of preterm delivery: a population-based cohort study. **Speaker:** Siavash Maghsoudlou
- 6) Use of proton-pump inhibitors among adults: an Icelandic nationwide drug utilization study. **Speaker:** Óskar Örn Hálfðánarson
- 7) Pharmacological treatments preceding Idiopathic Intracranial Hypertension (IIH) diagnosis. **Speaker:** Sarah Burkill

**10:00-10:30** Break

**10:30-11:15** Cancer from a Nordic epidemiological perspective

**Speaker:** Professor Søren Friis, Danish Cancer Society Research Center

**11:15-12:00** Current reforms in Swedish Cancer Care - focus on access and equity

**Speaker:** Dr. Ingrid Schmidt, the Swedish National Board of Health and Welfare

**12:00-13:00** Lunch

**13:00-14:00** Pragmatic randomized trials – examples from studies on cardiovascular diseases

**Speaker:** Professor Stefan James, Uppsala University

**14:00-15:30** Workshop (including break): Group discussions to answer challenging research questions

**15:30-16:30** Group presentations and Discussion

**18:00** Dinner

## Day 3, Friday 18 November

**09:30-10:00** Methods for time-varying exposure related problems in pharmacoepidemiology: an overview

**Speaker:** Laura Pazzagli, Center for Pharmacoepidemiology, Karolinska Institutet

**10:00-10:30** Break

**10:30-11:15** Screening and diagnostic detection of pre-clinical cancer in pharmacoepidemiologic studies

**Speaker:** Professor Til Stürmer Department of Epidemiology, University of North Carolina, USA

**11:15-11:45** Performance of the high-dimensional propensity score in a Scandinavian health care model

**Speaker:** Professor Jesper Hallas, University of Southern Denmark

**11.45-12.00** Wrapping-up and presentation of the host of the next NorPEN meeting November 2018. Helle Kieler and Sirpa Hartikainen

**12:00-13:00** Lunch in a bag
